REPORT

PHARMACY STUDY TOUR

Introduction

The Pharmacy visit for first year BHMS students (Appearing Batch 2022) was organized on **15th September 2022** (Thursday) by the **Dept of Homoeopathic Pharmacy**.

The students were supposed to reach the destination i.e. HPL (Homoeopathic Pharmacopoeia Laboratory) at Ghaziabad & next to Dr. WILLMAR SCHWABE UNIT at Noida in New Delhi.

Every one was present there by 10.00 am. Total no. of students accompanying were 65. Teachers accompanying were

1. Dr. Khaladkar (H.O.D Dept of Homoeopathic Pharmacy)
2. Dr. Shitole (Lecturer Dept of Homoeopathic Pharmacy)
3. Dr. Katekari (Lecturer, Dept of HMM)

Supportive Staff

6. Mr. Thokle Kishore
7. Mr. Raju Kute
8. Mrs. Reshama Bagwan

Visit to Homoeopathic Pharmacopoeial Laboratory

•

The next visited the place was Dr. WILLMAR SCHWABE.

Visit to Dr. Willmar Schwabe Manufacturing Unit

Sudhanshu Mishra

As we reached Dr. Willmar Schwabe, we first visited their hall. Then Dr. [Name] Scientific Advisor to Pharmacopoeial Committee and Author of two Pharmacopoeia were introduced to all students. He gave a brief idea of diverse subject like manufacturing technique, quality control or assurance & quality analysis, cultivation & quality of herbs, homoeopathic market & modern marketing techniques. A slide show was shown to us & many of our students interacted with Dr. [Name] & he answered all queries of students.

Students were divided into 3 groups each of 28 students. Every student was ready with surgical caps & surgical masks at the venue.

The rooms we visited were as followed:

1. The Raw Material Rooms:

The room for the raw material were all the drugs in their crude form were kept. Fresh & dried raw material were kept separately.

2. The Finished Product Room:

The finished product room where all types of medicines, tablets, ointments, biochemic remedies etc. were kept.

Stoke is arranged in alphabetical order, so it is easy to identify.

3. The Labelling Room:

Here all we saw different kinds of labels i.e. labels for medicinal bottles. The labels consisted of manufacturing date, license number, expiry date, price, etc. Dr. Khaladkar guided us.

4. Room For Potentiation And Tablet Making Room:

There we saw an electric triturator in which the biochemic remedies were kept for

potentisation. The information regarding the tablet making machine was given to us by Dr.Shitole.

5.Ointment Making Room:

In this room there was a water bath in which the ointments were prepared after which there was a stirrer, weighing machine ,etc. the specific gravity , viscosity & all essential things were noted.

6.Washing Room:

In this room all the instruments were kept for washing & an oven was there for sterilization of these instruments.

7.Room For Syrups:

In this room all the prepared syrups were kept in large stainless steel containers. The processes like maceration & percolation were explained to us by Dr.Khaladkar

With this it was end phase of the laboratory. Last but not the least there was thanks giving speech given by one of the student along with one small photo session with all the teachers as well as the non teaching staff .The students learnt various Pharmacological processes intended to make good qualitative medicine. Everything was packed up by 6:30 evening after which everyone dispersed to their respective places.

(Paste Photo)

As soon as we reached we were greeted by ~~Dr. Devaki Pant~~

Devaki Pant.

As we reached HPL, students were divided into ~~2~~ groups each of ~~23~~ students.

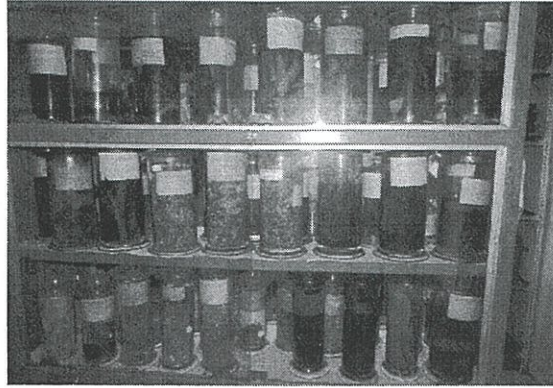

Our first visit was to Chemical laboratory:

- Thin Layer Chromatography (TLC) was introduced to us. In this technique non-volatile mixtures are separated.
- It is performed on aluminum foil of size 20x20 which is coated with a thin layer of adsorbent material usually silica gel.
- After the sample has been applied on the plate a solvent or solvent mixture is drawn up the plate via capillary action. Because different analysts ascend the TLC plate at different rates, separation is achieved.
- Thin Layer Chromatography can be used to monitor the progress of reaction, identify compounds present in a given mixture, & determine the purity of a substance.
-

Our second visit was to Museum:

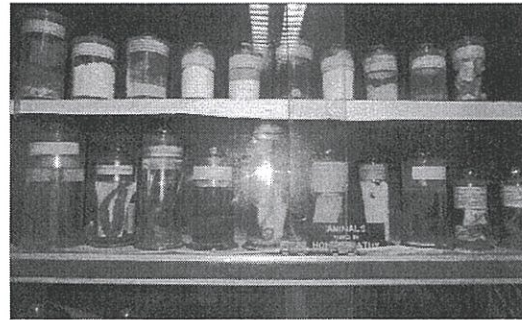

- All student were introduced to various sources of drugs. Sources are arranged according to kingdom. Such as Plant Kingdom, Animal Kingdom, Mineral Kingdom.
- **Sources from Plant Kingdom:**
 1. Calendula
 2. Atropa belladonna
 3. Aconitum napellus
 4. Rhux tox

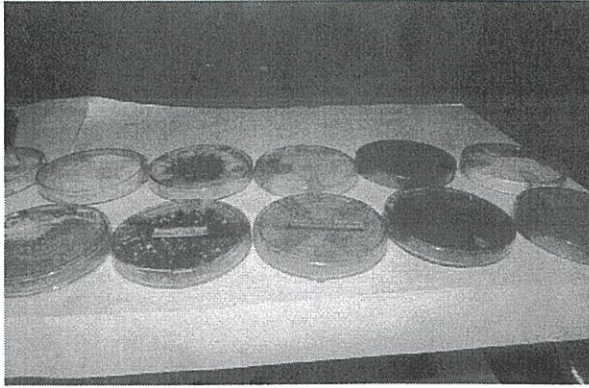

- **Sources from Animal Kingdom:**

1. *Scorpio europus*
2. *Tarentula cubensis*
3. *Blatta orientalis*
4. *Apis mellifica*

- **Sources from Mineral Kingdom:**

1. Sulphur
2. Potassium alum
3. Calcareo carbonicum
4. Gypsum crystal

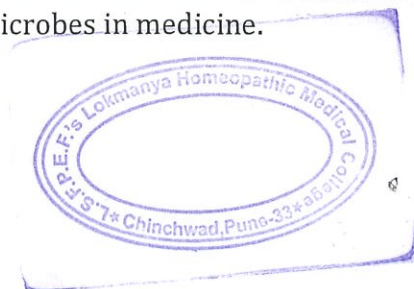

Our third visit was to Pharmacognosy Laboratory:

- In this lab we saw monographs & their preparation.
- For preparation of monographs the raw material were selected according to their size, shape & other characteristics.
- Here we saw the T.S. of stem.

Our fourth visit was to Microbiology Laboratory:

- In this lab the staff taught us about sterilization process so that we can able to detect the presence of microbes in medicine.
- Also he introduced all students to Laminar Air Flow Bench. This instrument is used to detect microbes in medicine.

LSFPEF'S LOKMANYA HOMOEOPATHIC MEDICAL COLLEGE
CHINCHWAD, PUNE – 411033

(EDUCATIONAL TOUR REPORT)

Date : 26/09/2022

Components

- ❖ **Number of students** - 65
- ❖ **Name of teaching staff accompanying students**

1	Dr. Arati Khaladkar (Professor HOD Dept of Homoeopathic Pharmacy)
2	Dr. Smita Shitole (Ass. Prof Dept of Homoeopathic Pharmacy)
3	Dr. Pankaja Katekari (Lecturer, Dept of HMM)

❖ **Name of the non teaching staff**

1	Mr. Thokle Kishore
2	Mr. Raju Kute
3	Mrs. Reshma Bagwan

❖ **Overview of Educational Tour**

Guidelines of Homoeopathic Pharmacy by visiting Homoeopathic Pharmacopoeia Laboratory (HPL) and Dr. Willmar Schwabe manufacturing unit.

❖ **Prerequisites**

Students should know basic knowledge of Homoeopathic Pharmacy.

❖ **Organizations**

The manufacturing unit and HPL were visited on 15th September 2022 (Thursday).

❖ Aims and Objectives :

1. To provide the basic knowledge of practical aspect of pharmacy by exposure of students to pharmaceutical labs.
2. To inspire students for their involvement in studies by the said visits to learn the related procedures.
3. To provide the platform for evaluation of their skill and knowledge by interactive methodology.
4. To infuse confidence amongst students about homoeopathy, its future and their career.
5. To improve communication skills (thinking and analysis)

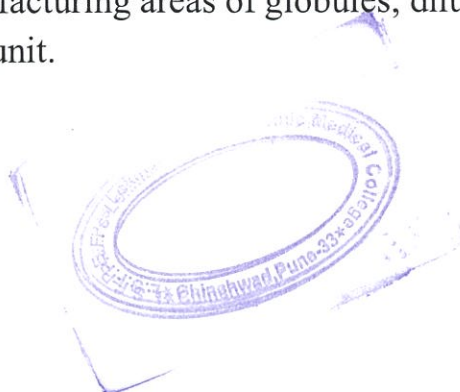

❖ Learning outcomes :

1. To be more than wishlist objectives, need to be realistic, pragmatic, understandable and achievable.
2. The focus should be on what students will be able to do or how they will show that they know and how this will help in their career and individual growth.
3. Knowledge we want the students to have by the end of the course.
4. Skills we want the students to master by the end of this course.
5. Attitudes we want students to demonstrate at the end of the course.

❖ Visit record : Maintained in journal

Summary :

1. Students achieved objectives of homoeopathic pharmacy.
2. Learned rules and regulations of HPL for drug approval.
3. Observed manufacturing areas of globules, dilutions and tablets at manufacturing unit.

DEPARTMENT OF HOMOEOPATHIC PHARMACY

S. No		Items	Required	Available
1	1	Pill tiles	25	25
	2	Porcelain dishes	25	25
	3	Crucibles with tongs	25	25
	4	Pestles and mortars (Iron, Glass, Porcelain)	25	25
	5	Water bath (metal/electric)	25	25
	6	Microscope (Student type)	05	05
	7	Glass apparatus for filtration with vacuum	02	02
	8	Thin layer chromatography apparatus	01	01
	9	pH meter	02	02
	10	Stop watch	25	25
	11	Hydrometer	05	05
	12	Alcoholometer	05	05
	13	Lactometer	05	05
	14	Electric potentiiser (for P.G. Course)	02	NA
	15	Electric Triturator (for P.G. Course)	02	NA
	16	Water Still (Distilled Water Plant)	01	01
	17	Percolator	05	05
	18	Macerator	05	05
	19	Botanical slides	As required	15
	20	Colorimeter (for P.G. Course)	01	NA
	21	Spectroscope (for P.G. Course)	01	NA
	22	Dissecting Microscope	02	02
	23	Distillation Apparatus (Glass)	01 set	01
	24	Pyknometer (Specific Gravity Bottle)	02	02
	25	Electronic Balance	01	01
	26	Hot Air Oven	01	01
	27	Chemical Balance	10	10

28	Physical Balance		01	01
29	Measuring glasses (all sizes)		As required	4
30	Miscellaneous-	Chemicals	As required	64
		Drugs	As required	77
		Glass Phials	As required	04 pkt.
		Glass Rods	As required	14
		Funnels	As required	20
		Filter Papers	As required	10 boxes
		Others	As required	Nil
2	Total number of Charts			25
3	Number of books in Departmental Library			255
4	Total number of Models			7
5	Total Number of Specimens	Vegetable	88 fresh, 246 Dry	
		Animal	30	
		Chemical	11	
6	Details of Vehicles available	Solids	05	
		liquids	12	
		Semisolids	05	
		Alcohol	30 ltr.	
		License for procuring Alcohol/Spirit available or not. es, whether it is renewed or not. (Annexure 10B)	Permission Available. Renewed till 31/03/2023 (In process)	
7	Whether Homoeopathic Pharmacopoeias (including Homoeopathic Pharmacopoeia of India) are available			7
8	Herbal Garden			
	No. of species planted			77
	Plants on pots			150
	Irrigation facility			Available
9	Educational Tour Conducted during the last year. (Annexure 10 B)			Yes
