

# LATE SHREE FAKIRBHAI PANSARE EDUCATION FOUNDATION'S LOKMANYA HOMOEOPATHIC MEDICAL COLLEGE

Near Elpro Company, Behind Prof. Ramkrishna More Auditorium, Chinchwad, Pune - 411033.  
Ph.: (020) 27357552, 27352503, E-mail : chinchom@rediffmail.com, Website : www.lmfhc.com  
P.T.R. No. : F/37677/PUNE

Affiliated to Maharashtra University of Health Science, Nashik, Recognised by N.C.H., New Delhi.

## ANNEXURE - IV

### Maharashtra University of Health Sciences, Nashik Homoeopathy Faculty

Academic Year 2025 - 2026

Academic Activities/Webinar/Workshop/CME/Activities in Last One Year.

Name of College/Institute: LSFPEF's LHMC, Chinchwad, Pune-411033

College Code: 142102

Dept: - Surgery

Academic Planner/Advanced Teaching Plan/Time Table (Year wise)

Details from 1<sup>st</sup> January to 31<sup>st</sup> December

| Sr. No. | Details                     | Total Number in Hours           |
|---------|-----------------------------|---------------------------------|
| 1.      | Lecture                     | (II BHMS – 38) (III BHMS - 148) |
| 2.      | Symposium                   | -                               |
| 3.      | Practical/Clinics           | (II BHMS – 22) (III BHMS - 100) |
| 4.      | Inter-Departmental Seminars | 03                              |
| 5.      | Seminar                     | 05                              |
| 6.      | Case presentation           | 03                              |
| 7.      | Journal Club                | -                               |

No. of Webinars Arranged, Guest Lectures,  
Workshops & CME(Publish details on college  
website)

| Sr. No. | Details of Webinars, Guest Lectures, Workshop & CME                        |
|---------|----------------------------------------------------------------------------|
| 1       | Seminar on Cancer by Dr. Shrikant T for III & IV Year BHMS 28/02/2024      |
| 2       | National Seminar on Cancer with Homoeopathy by Dr. Jalani dated 29.03.2024 |
| 3       | Seminar on Cardiac Cycle by Dr. Hussainy dated 14.12.2024                  |
| 4       | Motivation Lecture for Students by Dr. Sanjeevkumar Patil dated 03.08.2024 |
| 5       | Free Eye Checkup at Homoeopathic Hospital on 04.12.2024                    |

5. Diseases of the alimentary tract

1. Esophagus-

- a. Esophagitis
- ✓ b. Congenital abnormality of esophagus
- ✓ c. Perforation of esophagus
- ✓ d. GERD
- e. Hiatus Hernia
- ✓ f. Tumor of esophagus

2. Peritoneum-

- a. Acute peritonitis
- b. Biliary Peritonitis
- c. Postoperative peritonitis
- d. Pelvic abscess
- e. Subphrenic spaces/abscess
- f. Mesenteric cyst

*diseases of  
Peritoneum,  
mesentery,  
omentum*

3. Retroperitoneal Spaces-

- a. Fibrosis
- b. Swelling and Tumors
- c. Psoas abscess

4. Stomach and Duodenum-

- a. Gastritis
- b. Gastric and Duodenal and Peptic ulcer
- c. Hematemesis
- d. GOO
- e. Pyloric Obstruction
- f. Neoplasm
- g. Duodenum Diverticula
- h. Fistula

5. SI and LI-

- a. Congenital diverticulum
- b. Ulcerative Colitis
- c. Ischemic colitis
- d. Faecal Fistula
- e. Tumors
- f. Intestinal obstruction
- g. Intussusception
- h. Adhesion and Bands

6. Appendix- Appendicitis

7. Abd. TB

8. Rectum and Anal canal-

- a. Fissure in ano
- b. Piles
- c. Pruritis ani
- d. Prolapse of rectum
- e. Fistula in ano
- f. Ano-rectal abscess

Drugs that has affinity to alimentary tract diseases-

# III BHMS!

CLINICS-23 (NCH)

## SYSTEMIC SURGERY-

1. Diseases of Blood vessels
  - A. Examination of peripheral vascular system
  - B. Examination of Lymphatic system
  - C. Examination of peripheral nerve lesions
  - D. Identification of gangrene, hypo/hyper anaesthetic skin
2. Diseases of alimentary tract/( Liver, Spleen, GB, Bile duct)
  - A. Examination of abdomen- Injury, Acute & Chronic abdomen.
  - B. Examination of palate, Cheek, Tongue, floor of the mouth
  - C. Examination of salivary glands
  - D. Examination of case of dysphagia
  - E. Organomegaly- Tenderness
  - F. Examination of rectum
  - G. Examination of lymphnodes
3. Diseases of Thorax, heart and Pericardium-
  - A. Examination of Thorax
  - B. Pleural tap
  - C. Bronchoscopy
  - D. Intercostal tube drainage
4. Diseases of Urogenital System-
  - A. Examination & Investigation of urinary case
  - B. Examination of inguinoscrotal swelling
  - C. Examination of swelling in groin
  - D. Examination of scrotal swelling
  - E. Examination of penis

## ORTHOPAEDICS-

1. Examination of joints
2. Examination of bone continuity
3. Examination of spine & Back.

## ENT

1. Examination of Ear
2. Examination of nose & sinus
3. Examination of throat, tonsil
4. Examination of neck, Thyroid

## OPHTHALMOLOGY

1. Examination of vision

## DENTISTRY-

1. Examination of mucosa, tongue, teeth, gums
2. Examination of salivary glands

## INSTRUMENTS

## X-RAYS

## PROCEDURES

Dr. Dhanashree R.  
(MBBS, MS Opth.)  
once a week.

# OPHTHALMOLOGY (IIIrd year)

| TOPICS/ SYLLABUS                                                          | Total no.of lectures |
|---------------------------------------------------------------------------|----------------------|
| 1. General Introduction to Ophthalmology<br>Anatomy and physiology of eye | 01                   |
| 2. Errors of refraction- a. Myopia                                        | 01                   |
| b. Hypermetropia                                                          |                      |
| c. Astigmatism                                                            |                      |
| d. Presbyopia                                                             |                      |
| e. Arisometropia                                                          |                      |
| 3. Diseases of conjunctiva- a. Hyperaemia                                 | 01                   |
| b. Conjunctivitis                                                         |                      |
| 4. Corneal ulcer/ Suppurative Keratitis                                   | 01                   |
| 5. Leucoma                                                                | 01                   |
| 6. Keratitis                                                              |                      |
| 7. Inflammation of sclera- a. Episcleritis                                | 01                   |
| b. Scleritis                                                              |                      |
| 8. Iritis                                                                 | 01                   |
| 9. Iridocyclitis                                                          |                      |
| 10. Uveitis                                                               |                      |
| 11. Choroiditis                                                           |                      |
| 12. Cataract                                                              | 01                   |
| 13. Vitreous opacities                                                    | 01                   |
| 14. Intraocular pressure and glaucoma                                     | 01                   |
| 15. Retinitis                                                             |                      |
| 16. Retinopathies                                                         | 01                   |

|                                                                                                                                                                                                                        |           |

# ORTHOPAEDICS (IIIrd year)

| TOPICS/SYLLABUS                                                                                                                               | No.of lectures |
|-----------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| 1. Introduction to orthopaedics-                                                                                                              | 01             |
| 2. Fractures (Upper Limb/ Lower Limb) with classification, pathology, complications and Treatment                                             |                |
| 3. Fracture in children- Birth fractures, Epiphyseal injuries, Shaft fractures in older children with diagnosis, complication and treatment   | 01             |
| 4. Injury to joints- Dislocation and subluxation                                                                                              | 01             |
| 5. Injury to muscle, tendons, ligaments                                                                                                       | 01             |
| 6. Infection of bones and joints-<br>a) Acute osteomyelitis<br>b) Secondary osteomyelitis<br>c) Chronic osteomyelitis                         | 01             |
| 7. TB of bones and joints- a) Pott's spine                                                                                                    | 01             |
| 8. Poliomyelitis and other neuromuscular disorders-<br>a) Poliomyelitis<br>b) Cerebral palsy<br>c) Spina bifida<br>d) Peripheral neuropathies | 02             |
| 9. Bone Tumours- a) Benign tumors<br>b) Osteoclastoma (GCT)<br>c) Osteochondroma<br>d) Aneurysmal bone cyst                                   | 02             |
| 10. Low back pain with causes, history, investigation and treatment                                                                           | 01             |
| 11. Scoliosis and Other Spinal Deformities<br>a) Scoliosis<br>b) Kyphosis<br>c) Spondylolisthesis                                             | 02             |

|                                                    |           |
|----------------------------------------------------|-----------|
| 12) Arthritis and Related Diseases- a) Definition- | 02        |
| b) Rheumatoid arthritis                            |           |
| c) Ankylosing spondylitis                          |           |
| d) Gout                                            |           |
| 13) Degenerative diseases- a) Osteoarthritis       | 02        |
| b) Cervical spondylosis                            |           |
| c) Lumbar spondylosis                              |           |
| 14) Affections of the soft tissues- a) Bursitis    | 03        |
| b) Tenosynovitis                                   |           |
| c) Dupuytren's contracture                         |           |
| d) Tennis elbow                                    |           |
| e) Frozen shoulder                                 |           |
| f) Painful arc syndrome                            |           |
| g) Osteoporosis                                    |           |
| h) Fibrosis                                        |           |
